

AgroFerm

Extrudate from wheat bran and rapeseed, complementary feed for all animals

Composition:

Wheat bran
Rape-seed

Analytical data:

Dry matter	890	g
Crude protein	16,2	%
Crude ash	5,00	%
Crude fat	10,5	%
Crude fiber	9,00	%
Starch	13,80	%
Sugar	5,50	%
Calcium	0,20	%
Phosphorus	1,20	%
Sodium	0,05	%
Magnesium	0,45	%
Potassium	0,95	%
ME pig/kg	11,0	MJ

Amino acid composition per kg:

Lysine	7,00	g
Methionine	2,50	g
Methionine + cystine	6,50	g
Threonine	6,00	g
Tryptophan	2,20	g

Sensory requirements: Appearance: Extrudate, powder

Odour: Neutral / typical

Colour: Light brown

GMO-Status: Free of genetically modified organism (Non-GMO)

Remarks: Expiry date: 6 months after production date

Storage: Cool and dry

Packing: 25 kg bag on 750 kg euro-pallet, 1000 kg big bag on one-way-pallet, bulk

Feeding recommendation: 5 - 8 % in compound feed

This specification is based on valid terms of purchase and delivery. Any changes may only be made upon approval by our quality control manager. Information is without obligation and refers to the momentary state of affairs. It is the responsibility of the customer to consider the appropriate laws and provisions.

AgroFerm

AgroFerm

Healthy gut for vitality in piglets & sows

Combination of fermentable fibre and rapeseed realizes its full potential through a special extrusion process.

- Breaking down the cell structure of the crude fibre source causes an increase of water absorption and swelling capacity. Both these effects encourage peristaltic action (movement through the esophagus, stomach and intestine) and feed consumption.
- Microbiologically effective combination of low and highly soluble fibres has a positive impact on the entire gastro-intestinal-tract.
- Improvement in release and digestion of the amino acids in rapeseed for better enteric health.

AgroFerm, a natural fibre product with optimally digestible fibre and complementary effect of rapeseed for improvement of:

- Intestinal health & peristaltic action ↑
- Colon fermentation ↑
- Immunity ↑

Guarantee of health, welfare and low stress.

The perfect combination
of **fermentable fibre**
and **amino acids**
